db_update.php:648: High: fopen
extern.php:441: High: fopen
install.php:1715: High: fopen
Argument 1 to this function call should be checked to ensure that it does not
come from an untrusted source without first verifying that it contains nothing
dangerous.

admin_index.php:55: Medium: is_readable
A potential TOCTOU (Time Of Check, Time Of Use) vulnerability exists.  This is
the first line where a check has occured.
The following line(s) contain uses that may match up with this check:
58 (fopen), 62 (fopen), 73 (exec)

A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.

db_update.php:648: Low: fopen
extern.php:441: Low: fopen
install.php:1715: Low: fopen
A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.

db_update.php:1863: Low: unlink
profile.php:385: Low: unlink
profile.php:392: Low: unlink
A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.

header.php:56: Low: basename
header.php:161: Low: basename
A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.

profile.php:398: Low: rename
A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.

profile.php:399: Low: chmod
A potential race condition vulnerability exists here. Normally a call to this
function is vulnerable only when a match check precedes it. No check was
detected, however one could still exist that could not be detected.
