

Feedback Expert Review Team One

- Introduction was good.
- Persona's were good, but lacked some information regarding their experience with Android, smartphones, etc., which might have been useful in the review.
- Scenarios were well chosen, but described too briefly.
- Findings were mostly good. A little vague or interpretative here and there.
- Conclusion was too short. Expand on why it is still very usable, and why the grave errors are not as grave as they seem.
- Suggestions are good.
- Style was good. Consistent separation of observations and interpretations.
